Sodium Chlorite Liquid CAS 7758-19-2

Sodium Chlorite Liquid Product Description

Sodium Chlorite Liquid

Product Name:sodium chlorite

CAS No.:7758-19-2

Purity:25%,31%min

Molecular Weight: 90.45

Sodium Chlorite Liquid Specifications

Production Property: This product has high content and stability, can easily dissolve in water, and has difficult hardpan. It is an oxidizing agent with high efficiency and an excellent bleaching reagent. The pure sodium chlorite is equal to 10 times of bleaching powder. The more important characteristic is that it has the moderate ORP (Oxidation Reduction Potential)

Sodium Chlorite Liquid 25% 31%

Specification:

Assay as NaClO₂:25% 31% min.

NaCl :6.5max.

NaOH:1.1max.

Na₂CO₃:0.7max.

Na₂SO₄:1.2max.

NaNO₃:0.04max.

As:0.0002max.

Sodium Chlorite Liquid Packaging And Shipping

Packaging detail:

Solid:50kgs net in iron drum lined with polythene bags. In 20' FCL of 18 MT.

Liquid:25 kg, 240kg, 250kg, 1250kg in plastic barrel. In 20' FCL of 16 MT or so.

Delivery Detail:10-15 days after the deposit
